AffyBatch instance Dilution

## Description

This AffyBatch-class object represents part of a dilution experiment dataset.

## Usage

data(Dilution)

#### **Format**

An AffyBatch-class object containing 4 arrays.

## **Source**

Two sources of cRNA A (human liver tissue) and B (Central Nervous System cell line) have been hybridized to human array (HGU95A) in a range of proportions and dilutions. This data set is taken from arrays hybridized to source A at 10.0 and 20  $\mu$ g. We have two replicate arrays for each generated cRNA. Three scanners have been used in this study. Each array replicate was processed in a different scanner.
